Reasons to Invest in Organization Membership

Support your grantees.

PEAK Grantmaking works to elevate the overall impact of the philanthropic sector by identifying and encouraging equitable, effective, and efficient grantmaking practices. As more grantmakers improve their practices, nonprofits increase their time, capacity, and resources focused on the mission-driven work you fund.

Improve how you make your grants.

PEAK Grantmaking researches and documents effective practices, benchmarking information, and innovative approaches that help you manage grants, and comply with legal, tax, and auditing requirements, in the most efficient way possible.

Develop your team's expertise.

Assess current grants management expertise and create professional development plans to advance that expertise. Our members never learn in isolation: Through our peer community, members receive support and advice to help them fulfill their career potential.

Share your story and learn with peers.

PEAK Grantmaking uplifts the voices of our Organization Members through our *Journal*, insights, and community gatherings. We love sharing your stories of practice change and impact.
